

**NISH34** / ARCHITECTURE & DESIGN STUDIO

Our story has begun, on 2011,  
when Company Founder Önder Yıldırım and Architect & Restorator Burcu Dülgeroğlu  
came together and decide to merge their talents..

To introduce ourselves, we can use many technical terms in architectural sense,  
and we can confuse your mind easily .. We can tell you with fancy words about  
how professional we are, and can locate ourselves in a very high level  
in your perception.. Yes, we can do it..

But instead of talking about unnecessary details,  
we love the real details which makes our works more beautiful..

Even only for this reason,  
NISH 34 expresses much more than an architectural office to us..  
Like the integration of innovation, creativity, inspiration, art, design,  
infinite colors, materials, naturalness, freshness, music, imagination, and  
even beyond dreams, with powerful and exclusive architectural touches..

We are delighted to create brand new spaces, furniture, concepts that give joy of living,  
with our strong creative and designer team. For years, we are giving turnkey operations and  
consulting services from A to Z, to several international leading retail brands ,  
with our solution oriented approach and experiences.

We also love creating and applying corporate concepts for personalized interior designs,  
brand new shops, offices, cafés, bars and restaurants.

With each passing day, by renewing..

NISH34..

We are doing a good job.. Because into it, we are adding our soul..

He was born in Berlin.  
He graduated from Marmara University.  
After his long years in project management  
experiments in several companies since 2000,  
he has founded his own architecture company  
as NISH34 Architecture & Design Office,  
with Burcu Dülgeroğlu at 2011..
